

# Radome Installation Guide for 60 GHz cnWave™ V3000 with 44.5 dBi antenna

## QUICK LOOK:

Designed to protect the antenna from nature's harshest elements, particularly preventing ice and snow buildup on the antenna. Radome is highly recommended for cold climates and highpoint elevations.

Designed for a simple two-step installation, align the radome to the antenna and secure the radome using the supplied clips.

Align Radome to V3000 and attach with the supplied clips x 6

### Specifications

<b>Model Number</b>	C600500D004A
<b>Material Type</b>	Plastic
<b>Wind Survivability</b>	200 km/h (124 mph)
<b>Product Compatibility</b>	C600500D001A and C600500D003A

### ABOUT CAMBIUM NETWORKS

Cambium Networks empowers millions of people with wireless connectivity worldwide. Its wireless portfolio is used by commercial and government network operators as well as broadband service providers to connect people, places and things. With a single network architecture spanning fixed wireless and Wi-Fi, Cambium Networks enables operators to achieve maximum performance with minimal spectrum. End-to-end cloud management transforms networks into dynamic environments that evolve to meet changing needs with minimal physical human intervention. Cambium Networks empowers a growing ecosystem of partners who design and deliver gigabit wireless solutions that just work.
